#### **Website Report**

The website has been updated with May's meetings draft minutes and April meeting papers have been archived. The end of year accounts and accompanying transparency information has been uploaded with only the certificate to be added following the July meeting. I continue to share Cumbria Community alerts onto our facebook page so they automatically feed onto the homepage.

Weebly, the website platform providers updated their cookie consent pop up in time for GDPR – it overrides our old one. We can elect to override it but at our own risk; proposal to remain with recommended Weebly Cookie Consent Pop up.

Website usage has peaked at 75 twice in June – possibly as the tourism season peaks but the underlying trend is still up.

#### **GDPR Report**

The GDPR Implementation Plan has been updated to reflect the policies passed in May. The policies planned for July have all been drafted and are ready for approval. The Overall Data Protection Policy and a Privacy Policy for Councillors, Staff and Role Holders are included. Our training for July will include all councillors being briefed on them and how to respond to Subject Access Requests and Breaches. The GDPR policies and papers are so numerous and complex, I have prepared a simple A4 document to focus on the most important expectations of councillor to hopefully make everything more manageable; it will be kept as an aide memoir available at each meeting.

The Data Register will be completed as soon as the archives have been re-organised and then the CALC audit can be reviewed again in September.

Please refer to draft policies revised implementation plan/draft policies; DPP/SAR/Breach/Privacy Notice(Councillors)/Grants DPIA Policy and Councillor expectations document.
